

Degree, Diploma, or Certificate of Credit in Accounting

Program Overview

The Accounting Associate Degree program is a sequence of courses that prepares students for careers in the accounting profession. Learning opportunities develop academic, technical, and professional knowledge and skills required for job acquisition, retention, and advancement. Areas covered in this program include maintaining a set of books for business entities, account analysis, corporate accounting, managerial accounting, payroll, computerized accounting, spreadsheet applications and tax preparation. The program emphasizes a combination of accounting theory and practical application necessary for successful employment using both manual and computerized accounting systems.

Accounting student explains another student with income tax forms.

Degree, Diploma, or Certificate of Credit in **Accounting**

Accountants and bookkeepers are financial record keepers. They update and maintain accounting records, including payroll, individual tax, accounts receivable, accounts payable and financial statements. These workers have a wide range of skills from full-charge bookkeepers, who can maintain an entire company's books, to accounting clerks who handle specific tasks. Accounting positions focus on day to day transactions as well as industry specific financial needs. Excellent computer skills are required to be successful in this career.
