# WHITLOW ELEMENTARY

## BE A LEADER

## BE RESPECTFUL

## BE A PROBLEM SOLVER

# TOKENS

Every day, students have the opportunity to earn tokens for following the Whitlow Way and making good choices. Students' tokens can earn them individual prizes every week to every month depending on their grade level. Their token count also goes towards their STEM squad points, helping their squad win a celebration at the end of the quarter!

# WHAT IS THE WHITLOW WAY?

The Whitlow Way is being a leader, being respectful, and being a problem solver. This framework is part of Positive Behavioral Interventions & Supports (PBIS), which is a Multi-Tiered System of Support for our students, staff, and families. Our focus is to create a positive learning environment for all students and to meet their social, emotional, and behavioral needs. The PBIS team at Whitlow utilizes data to provide training and supports that students, staff, and families need.

# GOLDEN SPOONS

Golden spoons are a part of our cafeteria behavior management system. Based on data, cafeteria behavior has been a struggle for us in the past. To motivate students and reward them for positive behaviors, we implemented golden spoons. Golden spoons are rewarded to classes who show the Whitlow Way throughout the duration of their lunch time each day. Each quarter, the class with the most golden spoons on each grade level wins a reward!
